

Hydrogen Workshop

The workshop will delve into the intricacies of process engineering and the design of a hydrogen infrastructure.

Topics to be covered include:

- Where to place check or safety valves?
- Why use double block and bleed configurations?
- Where should O₂ and H₂ sensors be positioned?
- What is the proper procedure for filling a high-pressure hydrogen storage system?

Participants will collaborate in groups of up to 4 people.

Throughout the workshop, we will actively engage in designing and sizing a complete hydrogen supply system, which includes nitrogen purging.

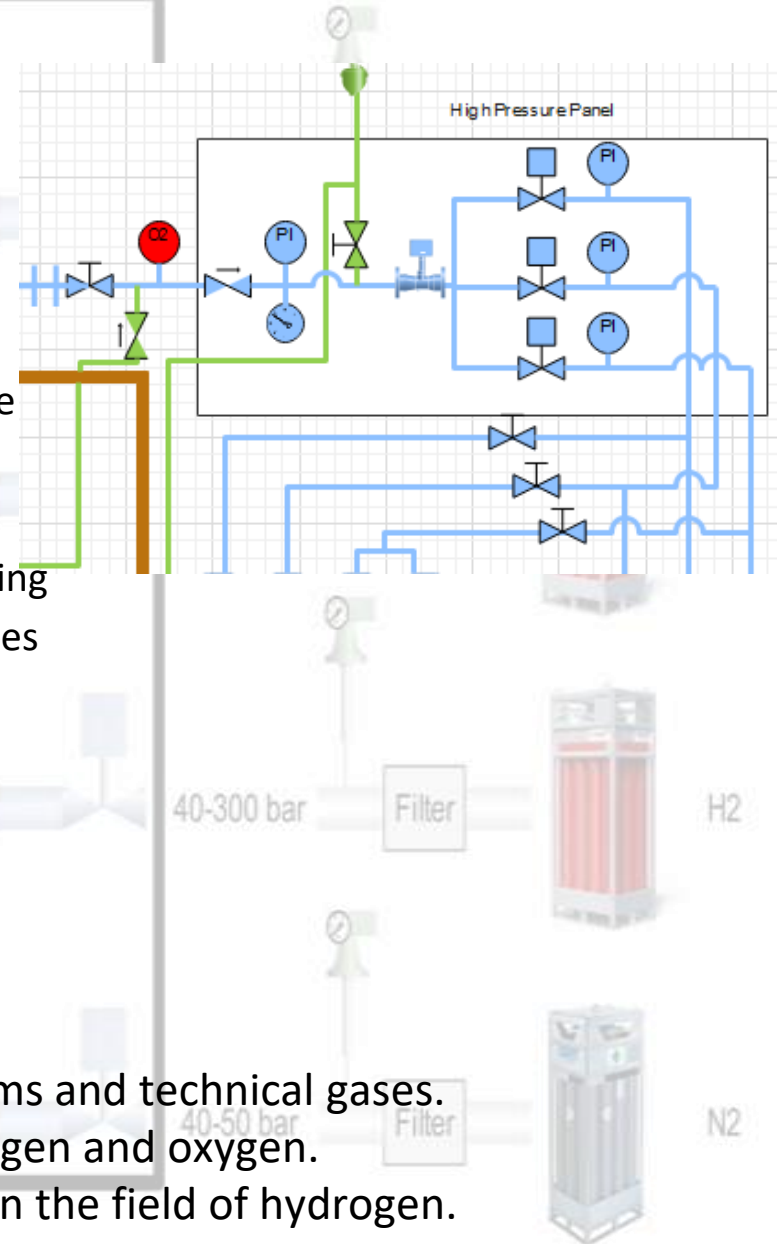

H₂ Ein

Lecturer:

Dipl.-Ing.(FH) Andreas Holl
Ingenieurbüro Holl
Stutensee – Germany

Over 25 years of experience in the field of fluid systems and technical gases.
Experienced lecturer in Germany in the field of hydrogen and oxygen.
Active for leading German and European companies in the field of hydrogen.

April 25th 2024 from 08:30 am to 04:30 pm

Event Location:

Campus Tower Suite Hotel

11145 87 Ave NW, Edmonton, AB
T6G 0Y1 Canada

Cost: 795 CAD \$ plus VAT.

Early bird discount available until 5th of February 2024

Catering included

Registration under:
